

DOUGLAS L. RIDENOUR
President / Secretary

EDUCATION

Bachelor of Science in Forestry (Forest Game Management), 1988, Stephen F. Austin
State University, Nacogdoches, Texas.

EMPLOYMENT HISTORY

2004 – Present Environmental Specialist / Consulting Biologist
Jones & Ridenour, Inc. – Arlington, Texas

Co-established Jones & Ridenour, Inc. Offered services include wetland determinations, delineations, permitting, mitigation, and mitigation banking, as well as biological evaluations and botanical, herptile, and mammal surveys.

1998 – 2004 General Manager / Consulting Biologist
Advanced Ecology, Inc. – Arlington, Texas

Established AEI's Arlington office, acting as Office Manager and Senior Project Manager. Services included site assessments and related services, wetland determinations, delineations, permitting, mitigation, mitigation banking, NPDES (stormwater) compliance, endangered species investigations, and wildlife management.

1995 – 1998 Environmental Specialist / Office Manager
Separation Systems Consultants, Inc. – Dallas, Texas

Established and managed SSCI's Dallas office. Coordinated and oversaw the transportation and disposal of hazardous and non-hazardous waste. Assisted clients in obtaining NPDES permits. Conducted and oversaw Phase I and Phase II Environmental Site Assessments. Performed wetland determinations and delineations, and assisted clients with Section 404 permitting.

1993 – 1995 Project manager / Environmental Professional
Southwestern Laboratories, Inc. – Houston and Dallas, Texas

Conducted Phase I Environmental Site Assessments and performed wetland determinations and delineations. Assisted clients in obtaining Section 404 Permits. Designed and oversaw the implementation of wetland mitigation projects. Conducted Threatened and Endangered Species Surveys. Served as senior technical review.

1989 – 1993 Wildlife Biologist / Hunting Guide / Supervisor

Dresser Industries, Inc. – King Ranch – Falfurrias, Texas

Assisted in management of 40,000 acres of wildlife habitat and general operation of facility. Initiated, designed, and supervised establishment of shooting preserve operation. Guided deer, feral hog, javelina, turkey, quail, and dove hunts. Maintained records involving scientific data and legalities.

1988 - 1989 Wildlife Technician - Texas Parks & Wildlife Department
JD Murphy Wildlife Management Area – Port Arthur, Texas

Performed daily operations involved with the management of a 13,000 acre marsh environment. Applied herbicide to noxious vegetation. Maintained water-level-control structures. Assisted in alligator research program. Helped coordinate and run public alligator hunts and check station. Censused alligator populations.
